Our ref: OUT26/1304

Hi [REDACTED] / OCG

Thanks for referring the BROMELTON ENERGY AND RESOURCE CENTRE development to us.

I've reviewed *Planning Report, Appendix E Technical Process Description* and *Appendix I Hazard and Risk Assessment* and found that the development does not involve the storage of a quantity Work Health and Safety Regulation schedule 15 chemicals exceeding 10% of their threshold. As such, we have no formal interest in this development.

A few points to note are:

- The supplementary burner fuel is diesel which is not a schedule 15 chemical (combustible not flammable liquid). If this was to be changed at a future time to a flammable fuel such as liquefied natural gas (LNG) or liquefied petroleum gas (LPG) then it's likely our formal interest would be triggered. I recommend advising the applicant of this.
- The activated carbon used in flue gas abatement will contain a range of toxins including very toxic dioxins in trace concentrations. Dioxin is schedule 15 chemical with a very low threshold of 150kg, meaning only 15kg would trigger our state interest. However, I don't believe it's likely that this quantity of dioxin would be accumulated in the waste carbon and in any case, it will be physio-chemically bound to the carbon which is then blended into the air pollution control residue (mostly limestone). This is likely to mean that the quantity of dioxin and other toxins would be exempt from the schedule 15 quantity calculation under schedule 15 4 (b)(i) & (d).
- I recommend conditioning or advising Cleanaway that they must not accumulate hazardous chemicals (including those as waste feedstock) such as flammable, toxic or oxidising substances beyond the scope of what has been stated in application materials (e.g. table 2 of appendix I) without a further MCU application or inquiry.

Regards,

Good afternoon [REDACTED]

Please find attached correspondence from [REDACTED] regarding AP2026/001 – SDA application for a material change of use for special industry (Bromelton Energy and Resource Centre) in the Bromelton State Development Area.

A copy of the SDA application is available at [REDACTED].

Should you have any queries regarding this matter, please contact [REDACTED].

Please send any responses to the contact listed in the attached letter.

Kind regards

[REDACTED]
